

ENTERPRISE RISK ID

Coordinated business risk solutions

Brought to you by

Insert the disk below to download our free Aon Navigator app and get an idea of how we can transform your enterprise today!

Providing safe passage in uncertain times

In today's business environment, the **only constant is change** and uncertainty is the rule rather than the exception. While navigating your company through unfamiliar waters you will encounter both **threats and opportunities**. These can either undermine or enhance the value of your organisation.

The ability to see the dangers and possibilities from afar – so that you can **respond quickly** and adjust your course appropriately – will make **all the difference** to your company's prospects.

The ability to see the dangers and **possibilities** from afar – so that you can respond quickly and adjust your course appropriately – will **make all the difference** to your company's prospects.

Introducing

ENTERPRISE RISK ID

Coordinated business risk solutions

Enterprise Risk ID uses established and coordinated **risk identification, assessment and management disciplines** to allow enterprises to both **anticipate** and develop **coherent responses** to business uncertainties.

This intelligence can be applied throughout your organisation to improve **decision-making**, strengthen governance and foster a **risk-intelligent culture**, enhancing your business's **resilience** and giving you an edge over your competition.

Four key areas of focus

Enterprise Risk ID provides **local and international** companies operating on the continent with the **tools and insights** they need to thrive in an **increasingly complex** operating environment. Our service offerings cover four key areas:

- 🌀 **Enterprise Risk Consulting**
- 🌀 **Learning Academy**
- 🌀 **Risk Intelligence**
- 🌀 **Thought Leadership**

One of the key reasons why **Enterprise Risk ID's** solution is so effective is that it takes an integrated approach.

1

Enterprise Risk Consulting

We will partner with you to achieve **long-term goals** in risk mitigation and management, including:

- Identifying **which areas** of your business need assistance.
- Identifying **risk champions** within the business.
- Engaging in the transfer of **risk management** skills to ensure the project's ongoing effectiveness.

2

Learning Academy

Enterprise Risk ID offers 52 suites of **training opportunities** that are linked to competency levels as well as the company's **maturity level**. These can be undertaken on-site and include:

- Core skills
- Practical skills
- Strategy
- Risk

3

Risk Intelligence

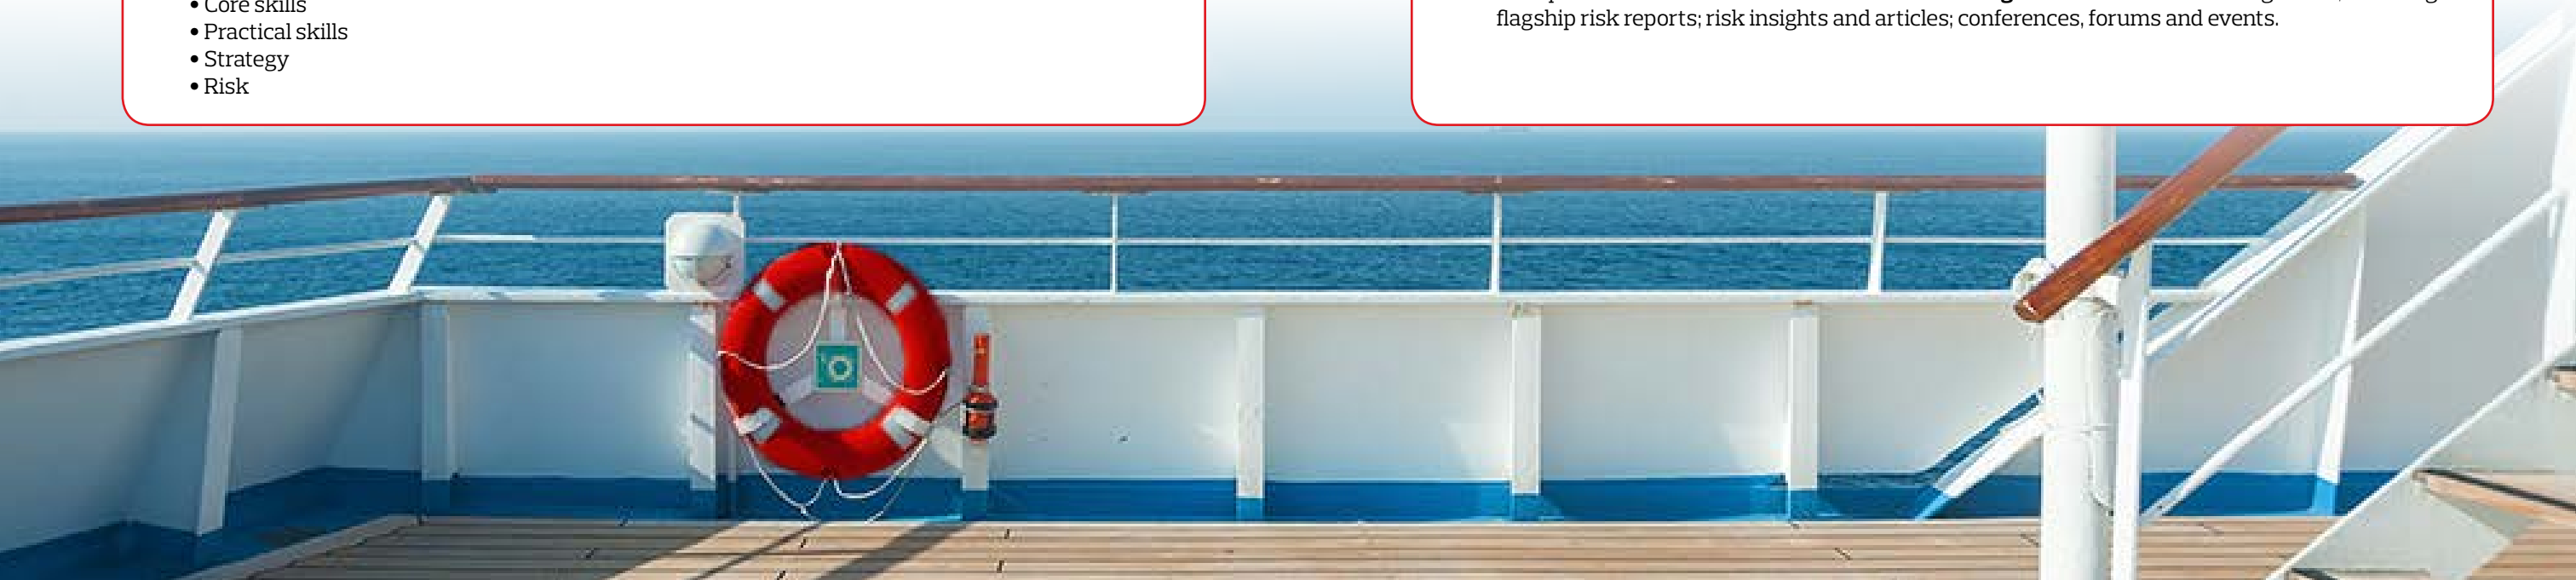

This includes **various platforms** that can be put in place within your company, including:

- A **subscription-based** risk platform to aid you in decision-making.
- A **dedicated analyst** who will monitor trends and social media activity and alert you to relevant trends which could pose a threat to your business.
- Our **Navigator app** which hosts a variety of useful content.

4

Thought Leadership

- Enterprise Risk ID has several initiatives to **encourage discourse** on risk management, including flagship risk reports; risk insights and articles; conferences, forums and events.

Risk management solution specialists

The demand for 'risk management solution specialists' capable of providing an **enterprise-wide risk management strategy** is growing. Managing risk and costs is now **more crucial** than ever as the interconnectivity of **traditional and emerging risks** means organisations can no longer evaluate individual risks in **isolation**, but must consider all potential risks in a **more holistic way**.

Aon's role as advisers is to constantly explore the **long-term sustainability** of our clients, ensuring that transactional insurance broking is enhanced with **tailored risk management advisory services**, covering areas such as:

- Risk financing
- Business continuity management
- Emerging risks, and
- Global trends

The benefits of an integrated approach

One of the key reasons why Enterprise Risk ID's solution is so **effective** is that it takes an **integrated approach**. We combine expert **strategic advice** aligned with the goals of your business, followed through with **hands-on implementation**, backed by our industry-leading expertise.

This **combination** is the key to the successful **delivery, adoption** and **embedding** of a risk management programme. Another critical part of our programme is **skills transfer**, whereby we **empower** our clients through **education**, to ensure the programme's **sustainability** long after our consultants have left your premises.

We take the **long view** with every project, partnering with you for as long **as is necessary**. The risk management journey is not a short-term undertaking. Even the most mature risk management programme requires **constant adjustment** and **refinement** since the internal and external factors affecting your organisation are **constantly changing**.

Powered by Aon

South Africa

In an ever-changing world, staying **on top of the risks** facing your business demands **constant attention**. A combination of **professional risk management, tailor-made insurance** and **employee benefits consulting** can make **all the difference** to your company's ongoing success.

As a leader in **insurance broking, risk consulting** and innovative **employee benefits consulting**, **Aon's professional and FAIS-accredited brokers and consultants** deliver **unrivalled market leverage** that gives you the best solution, advice and claims resolution.

Although risk continues to increase in **magnitude and complexity**, our colleagues and capabilities empower you to **identify and manage** the **challenges** facing your organisation.

The demand for **'risk management solution specialists'** who are capable of providing an enterprise-wide risk management strategy is growing.

Contact us today and we will arrange a
consultation with a risk management expert.
